For reflection

1. Revise the habits suggested. What is the purpose of each?
2. Imagine any one habit were neglected. What effect might that have on your efforts to build an authentic and sustainable outreaching *culture* in your group?
3. Are you willing to begin to apply these habits immediately? If so, how could you create reminders so you won't forget these things in 2 or 3 months' time - or in 6 months or a year?

What is your action point?
